

PVA SPONGE SPEAR

aadpri

- PVA sponge spears
- 100% fibre and particle free
- Disposable
- Sterile

Using high quality raw materials, we manufacture PVA sponge spears that are used by the doctors and surgeons in ophthalmic surgical treatments. These are manufactured using particle free fiber.

- Especially designed to meet the demanding requirement of laser and refractive surgery.
- Constructed of a dense PVA sponge and employ proprietary cleaning process that removes microscopic debris and particles.
- The special grade of sponge provides the surgeon with a stiffer tool with which to push.
- Tactile feel is enhanced while remaining non- abrasive to delicate tissue.
- It is fitted on a plastic handle is 100% fiber and particle free.
